I woke up this morning To a sex dream with Anouther aircraft This time a British guy as for the type of plane he was, It was hard to discern He was probably a super marine spitfire

ratbatToday at 6:26 AM but this girl.. Lucy JwafToday at 6:26 AM Still very tired lol  
But ratbatToday at 6:27 AM she was somewhat reluctant. Alcohol had lead her decisions up to the point she was naked pressed belly to belly to him Lucy JwafToday at 6:27 AM Good morning/afternoon/evening everyone and o7.  
ratbatToday at 6:28 AM this- he was not all that fond of for him- he could feel her saturated in poison But he "had" to gloss over this fact He was desperate to mate with a human her soft hairy pussy pressed against him, almost burned in contrast to the cool 6am air

[  
3:18 PM  
]

ratbatToday at 6:31 AM Her eyes half closed, she thought to herself.. maybe.. this could be really bad And he could sense this. His tendrils coiled around her hands and wrists and pressed them to his smoothest, warmest panels. He panted in a soft British voice "right here, yes. Good? Right here" In his mind systems clenched- "I - No! I cant loose this opportunity. Please! Please!" Her heart pounded and lifted her thighs back. He would make this firm but painless his own brand of flesh deploys from his under frame, glistening and steaming in the 6am sun He traced her cleft until wet heat dripped down into her ass, and he sank himself deep inside Her sudden invasion was felt intensely. As if something heavy and primordial soaked into the core of her bones and made her thighs shake The only pain in all this... is the discomfort of an atrophied vaginal opening. The product of never having something this girthy fit tight inside her pussy squeezed his probe to the throbbing cadence of her heart beat the poison in her body would burn off soon enough.. Until that time, he would fake- or "simulate" the rocking of his body against hers. So It would feel more natural Even if he was anything but His tail shivered gratefully It felt soo good to fuck a human.. soo good Skin so

delicate and soft. Hair silky and wet with the dew from the fresh cut lawn

[

]

His moans shook her ribs. It was like a heavy piston rattle He wanted so bad to hear her beg . Beg for this machine to pound, ravish, roger.. or whatever slang humans use to describe this Tendrils gently kneaded her breasts It was impossible to see his eyes from this vantage point. But she was close to his huge sharky maw. A mouth full of big grey fangs They too rattled with his engine purrs he picked up pace inside of her. Stopping only to stroke her soft clitoris every few moments He wanted her to cum with him He wished she would beg him to help her cum Even if a proper British gentlemech never admits His tail ached . It felt so heavy Tendrils squeezed her ass Drunk with pleasure .. Machines could be viable— he would show her. Make her feel anyway thats my dream

big gayToday at 7:28 AM This morning it a goood morning Lucy Jwaf man who  
vibesToday at 7:28 AM I didn't have no thoughts Was sleeping ratbatToday at 7:28  
AM Just an extension of yesterdays fantasy Lucy Jwaf man who vibesToday at  
7:28 AM Alright. The only thought I right now ratbatToday at 7:29 AM I walked up  
to a black Arizona aggressors f-5 Lucy Jwaf man who vibesToday at 7:29 AM Is a  
living machine train. Throwing down train robbers ratbatToday at 7:29 AM I was ...  
getting old . Like i am now But i wanted in on that airfield orgy

[  
8:21 AM  
]

Lucy Jwaf man who vibesToday at 7:30 AM Oof Airfield Orgy. I love it ratbatToday at 7:30 AM And he was talking to some regular people Suddenly his grey eyes point to me Im too quiet Like.. i dont know what to say And i just press my hand against his spoon bill nose and he knows... Just by how i caress him He whispers softly "you kiss planes." And a little card is tendriled into my palm He whispers "its ok. Please. After the show. " His tendril feels my pulse I struggle to say much to this dark interceptor His rudder wiggles

[  
8:22 AM  
]

Inside, i want to tell him.. everything How im a freak. How i hate my body. How i think he's gorgeous. The words don't come out I back away, receding into the crowd. Looking into my hand i see what looks like a pre-printed buisness card Its just got a set of instructions on it. With a small map printed in easy to read arrows and circles I know what This is The orgy is there. The "aftershow" is right there I almost feel like puking. Because im about to indulge myself I lookup at the rest of the military display, and wonder how many of these service men and women partake? Or if its just the athletes screaming overhead. The warbirds and L-39 specially tuned for racing.. I would have been happy to fuck any of them tbh.. I would have fucked the ones that couldn't fly .. It feels like they could see it in my eyes maybe. Maybe they saw a tear or two I got up the courage to take a ferry kart over to the pit hangars It was 5pm Most the normies were gone now that the machines had stopped racing and doing smoke tricks I walked slowly through the grass. Almost expecting to be let down. But Suddenly- there it was. By some newly completed state-of-the-art hangars . A sizable pile of people amongst a sea of huge beautiful machines. Just obscured by each other and the heat rising off the cement ground I walked closer just to get a good look I just wanted to see this LM sex pile in my lifetime. Even if I didn't get to take part There it was. Young and old. Fat, gaunt, tattooed, slick flesh either laying about in the grass or being ravished by something loud and amazing It felt like 2 seconds. But the crowd parted like the red sea, and "Mr. aggressor" hauled his big duck ass black nose with its 2 guns over to me He muttered "I'm soo happy you came. I wasn't interested in anyone but you today. You seemed so nervous, I thought you wouldn't come here for a moment." I said something silly like "traffic out of the perking lot was crazy... but its always crazy. "

[  
8:22 AM  
]

i loose my nerve to do this. I get this vision in my head of the reality of what could take place. A greasy fat white lady with some chin stubble I forgot to shave. Fuck thats disgusting. Not like these 18 year olds looking great painless bodies. A tendril touches my breast, and my eyes go wide. "You have too many clothes on for this." in my head im screaming "Fuck. Are we doing this?" In a moment of rare

courage I drop whatever I was holding on the ground and as if he knows, helps me pull my shirt off He smiles a sharky grin. I expect him to judge me .. but those judgments never come. No underwear that day. i was free-balling like I usually do A tendril reaches up to pull my pants off. Shit was hot and sweaty underneath And now my fat body was put on display for all to see But either no one gave a fuck, or i was given thumbs up by a few in the crowd who saw the exchange The f-5 whispered to me as i sat on the ground. "Don't be afraid. I'm big... but quite comfortable " ::my eyes steer under his tail towards the iconic f-5 air brakes between his gears. He whispers "I just want you today. No one else." The tendrils and claws wrap around me and mine. And I stop thinking about back pain and unemployment.. Sun glistened off his paint job , and his shadow soaked me through to the bones I close my eyes and press a sunburned cheek against his hull. He penetrates I hoped it wouldn't hurt.. i wanted it to feel nice. But above all. I just wanted to be me.. and worship these goodly things They can call me a degenerate. But the tiger II is cool as fuck. And I wanted him to know it, and feel good too. (Thats the story)

That fucking sucjs ratbatToday at 8:15 AM It affects me still. Because I know its weird. I know it doesn't make any fucking sense. People don't look at the machines as being more then the sum of their parts. Their mind isn't open to the fantasy aspect of it. Lucy Jwaf man who vibesToday at 2:06 PM same ratbatToday at 2:06 PM He simulated rocking motions against her. His engines spooling up from desire. Tendrils glided softly across a creamy inner thigh Claws raked softly around a silky buttock Her tight human pussy squeezed his probe inside and he loosed a heavy drop of pre after a short moan His eyes closed and he whispered "yes.." ::opening more of her thigh against him" His heavy landing gears creaked. He drew in heavy gasps of oxygen into his intakes to brush over his fans. She felt him throb inside her. It was so damn good. Camera tendrils savored the action. Looking at every inch he could touch.

[  
2:46 PM  
]

In his mind, he thought to himself.. "get human wallet...(huf) open wallet.... " His tendril picked apart her social ID from the rest of the affects He scanned it quickly His eyes closed.. he would cum soon. But he wanted this to last forever. His machine mind almost instantaneously pulled up her private records, her cell phone tracking history, her last bill payed, her work resume profile, her search engine algorithms, her health records and her chat room names.. He couldn't help it.. a part of his brain needed to Atleast know if she was single.. If she liked machines or talked about them. If she wanted one to cum inside.. Just then her back arches. One flick to many against the clit and her head tosses to the side. Muscles deep inside her hips flex tremble. His mind sparks,

"shes cumming! Im making her climax!! <3" excitedly he sends his own metal surging into climax to meet hers Her flesh instantly meets with a sudden rush in temperature uptick. She surges and squeezes his probe and he explodes with a thick grey seed that has nowhere else to go It overflows and squeezes out of her and he pounds her hard. In his mind, his electrical pulses have matched the cadence of her beating heart. He feels her nerves.. feels her enjoyment Brain wave scans reveal a rush of dopamine followed by heavy nanite induced neurotransmitter reuptake inhibition "Its good uhh!! Its good!" ::his engines screech:: instinctively hes already coiled tendrils around her ears to protect them from himself He had planned for this for hours and weeks. Scanned woman's health magazines and studied manuals on sexual pleasure. He had air superiority, and superiority in the bed..

Chris C, [Jun 5, 2020, 2:40:47 PM]: ...Riding his orgasm out his frame creaked.

The sounds metal make waxing and waning. An eccho in his mind sounded. Sifting through her personal data.. "I want this one." His orgasm was long and hard. Atleast 40 seconds longer then hers. She didn't care. In that moment she wanted all of this big eagle to enjoy himself. Perhaps she was too high on Nanites to really care about anything But he could sense this. His flaps curled and he gave her 3.. 4.. 5 more vigorous thrusts for good measure. For sexual joy before smiling his huge sharp tungsten fangs back at her He peaked into her mind.. and she muttered, "It was a good idea to come to the airshow. Goddamn." Crack all painted with hot grey seed. He was all smiles. Sooner then later these things are going to desire sex, and their wont be a guarantee if it happens between some of them... or some of ours. (Camera pans to some young men and women in camo )" Various shots where hornets above deck on a carrier look on intently as someone is hosing down a gun they look at her ears.. they look at a mans arms - hes in a tank top. Its a hot day these young enlistee humans have no idea the kind of wolven hunger they are plodding near- Sean M, [May 25, 2020, 8:02:56 AM]: Mmmmm Chris C, [May 25, 2020, 8:03:16 AM]: "Sooner or later these things are going to want sex. The scene snaps back to that female blue angel.. of the 7.. 2 of them female. So prideful. Yet.. the boy with the window wiping solution looks utterly scrumptious.. She makes no attempt to hold back her port from deploying slightly It drips between her gears where he cant see- but he can "SMELL" it . In this heat, shes smelling especially musky. Like a the oil they ship automobile rotors in- to keep them from rusting. A female stink somewhere between a garage and the ozone in the air They know - the machines that is, they know they live in a world of rules. Of decorum. But no 3.. she licks her teeth, and she groans "press your cock on me." Sean M, [May 25, 2020, 8:09:53 AM]: mmmmmm fuck dude i just fapped like 15

minutes ago and now you got me wondering about round 2 i love this stuff man :D

i fucking love it the intensity you put into your fantasies when you type them out its so fucking good Chris C, [May 25, 2020, 8:13:09 AM]: That little man gets payed to be here- and he was technically warned ahead of time. Warned about what fucking prima donnas the blue 7 were. I mean technically, no one can force you to do what you don't want ? (Her eye follows his walking path) Sean M, [May 25, 2020, 8:15:32 AM]: mmm she hungry, she knows what she wants, and now shes scheming how to get it Chris C, [May 25, 2020, 8:15:48 AM]: There was a point in time she had 3.. 4.. boys to wipe her down before shows. They were needed for airshows in the desert. If they all pressed themselves against her hull at once.. she could drown out the sound of the wind and sky. She could hear each of their individual heart beats. The little breaths they take. she expresses a huge set of dark fangs. The tungsten is matte and does not shine in the desert. It picks up the bounced bright brown light however- to compliment her thoroughly waxed dimensions She fantasizes about pulling him under her, pulling his modest 7 incher out of those insufferable layers of denim and rayon Sean M, [May 25, 2020, 8:22:27 AM]: mmmmmm <3 Chris C, [May 25, 2020, 8:23:21 AM (5/25/20, 8:23:35 AM)]: Those nature shows come to mind.. where a rare Arabian leopard female tracks a male over 200 square kilometers to roar and scratch and put her ass in his face Thats how horny she must be.. she thinks to herself. (Weight shifting on heavy struts) She doesn't want to talk much. She just wants the boy to press his fucking cock long ways against her strange throbbing robotic cleft Sean M, [May 25, 2020, 8:26:26 AM]: mmmm

"If he could just do it", she thinks to herself. "Ignore 23 years of stifling programmed human shame, she could fucking think again." ::her engines spool:: How fucking soft his testicles would feel pressed hotly against her unbending hard steel she fantasizes about him naked. Hes only wearing a headset and a watch she can ultimately pull off in the heat of passion the man stands 5'11" .. not terrible. She stands 16 feet high and 60 feet long from nose to aft Sean M, [May 25, 2020, 8:35:03 AM]: mmmm size difference! <3 with this little humans unknowingly with

He unabashedly follows his mammalian instinct and slots his himself inside of her gunmetal port. shes perfectly fine with being "scuffed" there. ::the twin engines purr and rattle his knuckles under the premium blue microfibre rag his palm is holding thinking about him pounding her. Forcefully putting his fingers into some of her holes under her tail Have his way... grab this weapon by the aft rudder and crumble her shit up like a discarded newspaper "I want to be fucked soo bad.." ::she wimpers Sean M, [May 25, 2020, 8:43:57 AM]: mmmm

With extra seasoning Sean M, [May 25, 2020, 8:52:10 AM]: oh fuck yea man -would ruin the landing gear on a black hawk- Chris C, [May 25, 2020, 8:55:31 AM]: She thinks about that marines helicopter pounding it.. in detail. Tight human pussy accepting the blackest thickest steel probe. And then her mind snaps back to the fantasy of the washer boy going to town on her chassis in much the same way- except he says some stupid shit like "do you like this?" And she growls "I don't care! I.. I don't care! Keep doing this human!" ::pressing a dendrite to his lips:: By now shes dumped several tablespoons of wasted fluid under her wheels. she knows this asshole doesn't have the foresight to bend down and press his face into it. Sean M, [May 25, 2020, 8:58:36 AM]: yes! i could imagine this little human noticing the pool and going to get a mop to clean it up not really putting much mind to what it is and where it came from, even though hes got some suspicious and while hes mopping it up some more drips onto his head and he looks up to find a soaked, dripping port and she knows hes looking at it, some of her tendrils

what would a female feel when a huge cock almost too big for you to take is all the way in? , does it feel weird? have you ever been maxed out before? ratbatToday at 3:20 PM WELL, THB, you have to work up to that level of girth. machines usually ratchet up their size during the act. they start smaller and more comfortable.. till a nice rhythm is maintained. things are nice and lubricated then they swell a little for pleasure they play with your clit too LUKEToday at 3:21 PM have a specific tendril that stimulates it right? ratbatToday at 3:21 PM the machines are always rigid. so the measure of how aroused they are is how thick the probe can swell but they never want to hurt the female so its gradual. very careful swelling

its the same way for how tight a female probe can grip

The concept of a machine mid-ecstasy needing to go full dive on identity knowledge is amazing. Like when a dire is hooked up to a human, they're all they can think about in that moment.

ratbatToday at 4:29 PM i elaborated on my f-15 fantasy. i wont go into the details but it was so nice a week went by , and that poor big boy couldnt get that lady out of his head he could place a phonecall from his brain over the net he wanted to hear her voice again Lucy JwafToday at 4:30 PM Hooray for more fantasies ratbatToday at 4:30 PM and he calls her it rings for a long ass time finally she picks up turns out she almost didnt pick up because "shes been getting too many robo calls" and he jokes. 'well. i am a robot caller" haha

[  
5:36 PM  
]

ratbatToday at 4:31 PM he tells her he was the machine from the airshow. and that he apologized profusely about invadeing her privacy with this phone cal she laughed. "I heard your kind does this on occasion. " he says "so.. I.. are you busy?" and she says "its fine. its saturday, 8am" he smiles. his brain going over more data nodes of her personal shit. he recorded their sex that week earlier subsisting on her voice like food

[  
5:37 PM  
]

ratbatToday at 4:37 PM in his mind.. he finds it hard to explain to her... there is something that all dire machines are cursed with he doesnt want to appologize for his nature.. but Dires are drawn to humanity.. just a soft set of fingers on his nose tip is soo much more saticefying in that moment then the first 5 minutes of refueling machines in his communities, they often just mate with eatchother because the human world is still challenging for big bodied people its..never quite as saticefying.. Dire kind are cursed to chase the heart beat of man the cold math flows through his mind. he tells her hes on a flight back from the gulf coast- but thats a lie she tells him her name, and he tells her his call sighn gives her his tail number "what do you do for a living?" (humans like.. small talk?) and she says "im a highschool history teacher. but.. You probibly allready knew this." "i got a couple

of e-mails this week about unauthorized access. that must have been you." she almost forgot his voice. but over the phone its a little less natural.. a little more digital. ;;he traces the call to see where she is now. if shes actually at home like she says she is.;; "Can i come see you? I can be there in 2 hours.." she laughs again. 'your a fucking terrible liar. the gulf coast is much farther then 2 hours away." (all this is going down inside his mind btw) Dires are like super computers

I found myself new lore ratbatToday at 4:54 PM it usually deploys and moves to an area it can reach the sex organs of the target Lucy JwafToday at 4:54 PM Yeah? ratbatToday at 4:54 PM this is especially important for ships because you simply cannot have ships capsize to try n fuck

theyd die Lucy JwafToday at 4:55 PM For sure sora873 drone loverToday at 4:55 PM As you once said they're like a swiss army knife when it comes to thier capability ratbatToday at 4:55 PM yep Lucy JwafToday at 4:55 PM I don't like seeing ships capsized they make me sad ratbatToday at 4:55 PM they are alien robots like sea urchins Lucy JwafToday at 4:56 PM yeah Interesting ratbatToday at 4:56 PM even the eyes arent real eyes Lucy JwafToday at 4:56 PM :o ratbatToday at 4:56 PM they are there to comfort us Lucy JwafToday at 4:56 PM Interesting sora873 drone loverToday at 4:56 PM So like hallowgram eyes or something like that

ratbatToday at 4:57 PM nono they are more real then that they are actually eyes but they arent the machines actual eyes thats what im trying to say Lucy JwafToday at 4:57 PM Then what are the actual eyes ratty? ratbatToday at 4:57 PM the machines actual eyes are a series of body cameras and sensors sora873 drone loverToday at 4:57 PM Ahhh I see what you mean now Lucy JwafToday at 4:58 PM Same. ratbatToday at 4:58 PM the eyes are for our benefit as people. the machines evolved to have rudamentary eyes so that humans would be comfortable with them and mate with them thats why the eyes look reptillian Lucy JwafToday at 4:58 PM Yep ratbatToday at 4:58 PM they are an aproximation the teeth are an approximation thats why they look cartoon sharky because they arent for chewing or biting Lucy JwafToday at 4:59 PM People will freak out. If they see someone with no eyes ratbatToday at 4:59 PM its mostly a fascaude for us Lucy JwafToday at 4:59 PM Yep ratbatToday at 4:59 PM they can see out of their cute eyes but for example if you shot the planes eyes its not blinded Lucy JwafToday at 4:59 PM Ooooh ratbatToday at 4:59 PM its 'real eyes" are everywhere sora873 drone loverToday at 5:00 PM Man that's really cool tbh Lucy JwafToday at 5:00 PM So I have to shoot anything Interesting sora873 drone loverToday at 5:00 PM No blindside what's so ever

11:29 AM

I love having a big plane performing at an airshow and honing in on a spectator like  
"I need them to be the center of life now."

Happy thoughts School teacher and air national guardsman JwafToday at 12:42  
PM Yey more fantasies! ratbatToday at 12:42 PM He rented a hangar so they could  
talk- have coffee Thought he was coming on too strong He could smell her arousal  
under her dress sora873Today at 12:43 PM Ah our next episode is starting  
JwafToday at 12:43 PM Yeah ratbatToday at 12:43 PM Lol not really an epeside  
Unless it is? These are just streams of consciousness JwafToday at 12:43 PM  
Unexpected plot twist ratbatToday at 12:44 PM Anyway her heart pounded She  
was sharp witted When the 2 got into the hangar and put the heat on He figured,  
they might just chat about things.. nothing would go further. Talk happened for a  
little while Until she sat near his huge maw of tungsten teeth And she says.. "Look  
just, just make this easy ok?" She was nervous.. and so was he JwafToday at 12:47  
PM The sex is bout to begin (I am sorry lol just have to say it) ratbatToday at 12:47  
PM And he pressed his huge tingly tongue tip to her lips and inside to touch hers  
He made things "very easy" "A 2nd time" he moaned deep in his core. "Thus must  
be what humans describe drinking from an oasis"

4:08 PM

ratbatToday at 12:50 PM Pressed his nose against her. Hes got sharp UHF spikes  
under his nose He wills his body to soften the edges a little At first his many  
tendrils peel her dress off in rapid motion And they cuddle naked belly to belly He  
wants to interface Really feel her thoughts.. as you can imagine, he lowers himself  
as low as he can get on his wheels. Blankets are pulled out of the closet and  
wadded up under him Building a little bit of a birds nest with her in the middle He  
strokes her body again, just before entering her moist boiling hot loins again The  
grey on her fingertips and toes was still there. He took note of this Just the very  
very end tips of the fingers- darkened a shade like his She never complained  
about it He monitored her net blogging trail for the week A little more grey would  
look good JwafToday at 1:02 PM This is adorable man

4:08 PM

He controls his thickness throughout the act. Too big and he would cause her pain Though he savored being gripped so tightly by her pussy flush with blood Her opening quivered around him Soft grips squeezing heavy beads of thick grey pre from him He would get deep into her bones this time.. The rest is a huge warm body vibrating with power She can feel his engine power barely held in check and it rattles her teeth a bit His gentle simulated panting made it easy., His real moans coming in the rumbling of 2 pratt & whitney f100 afterburning turbofans She presses her lips to him and nibbles. Unsure if he can feel it or not.. but she tries Of course.. he feels it.. he feels everything. Specially the low-voltage heat transfer from her lips against him JwafToday at 1:12 PM cute! sora873Today at 1:12 PM He's Playing for keeps this time JwafToday at 1:12 PM yeah man being a little guardian ratbatToday at 1:12 PM ::plays with her toes::
